

Quality and Environment Policy.

The RECUPERACIONES MASNOU, S.L. business Management is compromised with the protection and preservation of the Environment, the quality of the services given to its customers, the security, the health and all our workers. All being an integrated and imperative part of the company's general policy. That is why an Integrated Management System (environmental + quality) has been introduced according to the ISO standards 14001:2015 and ISO 9001:2015.

RECUPERACIONES MASNOU, S.L. develops its activities as a Carrier and a Waste Manager under the authorization of the Catalan Waste Agency. Therefore, and given the nature of the company activities, we mean to contribute to a sustainable progress for future generations by the waste handling.

The following steps are considered by the company in all cases for waste management:

As a waste management company concerned about environment preservation, **RECUPERACIONES MASNOU, S.L.** policy is based on the prevention and the recycling from the above principles.

Therefore, the company has adopted the next principles and commitments:

- To work in a continuous improvement line with the Integrated Management System for quality and environmental efficiency.
- To give satisfactory services to our customers and suppliers.
- Guarantee the compliance of the current environmental, work and health safety laws.
- To maximize the recovery of the managed waste by establishing the best proven technology, if it is economically viable.
- To adopt the commitment in terms of preventing pollution in our processes.
- To prevent damage and to improve the Health of the workers in their workplaces.
- To consider the inputs from anyone interested in our activities and attend any possible communications related to them.
- To adopt environmental, quality and safety goals to improve substantially.
- To advise and guide our customers and suppliers so they can perform a precise sort of their waste.

RECUPERACIONES MASNOU, S.L. provides this policy to whom it may concern, and will spread it to all the company workers and collaborators.

The Management ratifies these commitments and will look out for it to be known, understood, implanted and kept up to date.

Salvador Masnou
